Education

B.Tech in Computer Science & Engineering

2024 – 2028

Aditya University, Surampalem, Andhra Pradesh, India

- **Relevant Coursework:** Full Stack Development, Flutter App Development, Advanced Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOPs, Software Engineering.

Projects

ShieldX – Web Application Security Framework

2025

Designed and developed a static e-commerce website for showcasing cyber security tools and products. Built responsive UI using HTML and CSS with structured layout and product layout sections. Implemented clean navigation structure and user-friendly interface design Tech Stack: Node.js, Express.js.

AegisX – Mini SIEM & Intrusion Detection System

2025

Developed a web based SIEM platform for real time monitoring of authentication logs and API activities. Built log aggregation, event correlation, and anomaly detection system with automated IP blocking. Tech Stack: Node.js, Express.js, PostgreSQL, JWT, WebSockets.

QuestAI – AI Powered Question Bank & Paper Generator

2026

Built an AI-powered Question Bank Paper Generator to automatically create and classify questions using Bloom's Taxonomy. Developed full-stack system with dynamic UI, question generation, and customizable paper building features. Tech: React, Tailwind CSS, Node.js, Express.js, PostgreSQL, JWT, Three.js.

Thunder Thursday – College Event Management Application

2026

Built a full-featured college event platform with all event app features. Implemented verification based authentication and JWT-secured backend APIs. Developed live voting system and event update system. Tech Stack: Flutter, Node.js, Express.js, PostgreSQL, Firebase.

SkyRoute – AI Powered Question Bank & Paper Generator

2026

Developed a desktop-based Bus Ticket Booking System with user and admin modules for booking, route management, and seat selection. Implemented secure authentication, transaction-based booking, and interactive seat allocation using Java Swing and JDBC. Tech: Java, Swing, JDBC, MySQL, OOP.

ExploreMate – AI-Powered Smart Travel Companion

2026

Developed an AI-powered travel application for trip planning and destination discovery. Implemented AI itinerary generation and location-based recommendations. Tech Stack: Flutter, Node.js, Express.js, PostgreSQL, Firebase.

Skills

Programming & Scripting: C, C++, Java, Python, Dart, JavaScript, SQL

App Development: Flutter

Web Development: HTML, CSS, JAVASCRIPT, React, Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB Atlas

Cloud & Backend Services: Firebase (Authentication, Cloud Messaging, Storage)

Security: JWT Authentication, OWASP Principles, Secure Coding Practices

Core Concepts: Operating Systems, DBMS, Computer Networks, Data Structures

Tools & Platforms: Git, GitHub, VS Code, Android Studio, Firebase, Postman

Certifications

Cisco Network Academy (NETACAD): Python Essentials 1, Programming Essentials in C C++, Operating systems.

Coursera: Database Management System, Operating Systems, Artificial Intellingence, Python, HTML, CSS and JS.

Global Certifications: Microsoft Office Specialist Excel 2019 Associate, Microsoft Certified Power Platform Fundamentals.

Cyber Security: Kitech - Vista Pvt Lmt.
